LA CROSSE FAIR ASSOCIATION IN GOOD FINANCIAL FORM

Coal Dealers Meet at Watertown to Settle Disputes—Suit Against an Insurance Company—Items Gleaned From Every Portion of the Commonwealth

La Crosse, Wis., March 4—A statement by the Interstate Fair association yesterday, shows a more satisfactory condition of affairs than has existed in the past two years. With the receipt of 1897 fair all obligations of that event have been discharged and arrears of the 1896 event, which was ruined by rains and other misfortunes, taken care of except about \$300. There remains a note held by one of the banks for \$3,500 which has been reduced nearly \$2,000 since last year. This is no annoyance as long as the interest is paid, and the association will begin its work for a fair this year with excellent prospects and no annoyances. With the generally reviving activity, it is considered safe to venture upon a larger fair and more important attractions than for several years past.

CGAL DEALERS HAVE A MEETING

Couvene at Watertown to Settle Their Grievances.

Watertown, Wis., March 4—A meeting of the Executive board of the Coal Dealers' association of Illinois and Wisconsin was held yesterday. The members of the board are R. O. Brown, Oshkosh; J. W. Lowe, Chicago; B. B. Boecker, Naperville, Ill.; Theodore Huber, Watertown and W. H. Simpson, Milwaukee.

The association has been in existence about a year and a half. It is the outgrowth of the old Coal Dealers' association of the northwest, which failed in its purposes on account of an attempt to cover too great a territory. It has a membership of about 400, including the prominent wholesale dealers of Chicago and Milwaukee and many of the leading retailers of the two states.

The main object of the organization is to prevent infringement upon the rights of the retailers by the wholesalers and to establish the equitable principle that the retailer shall not be subjected to competition with the parties he buys from; that fair opportunity be offered to the man who invests his time and money in the retail business, and assume the risk which such business inevitably involves, to earn an adequate remuneration for his labor and the use of his capital. The association does not attempt to regulate prices in the least.

Yesterday's meeting was to discuss and settle grievances and in the interest of increasing the association's membership. There were present from Janesville J. W. Hodges, J. W. Carpenter, William Buggs and John Lowry.

INSURANCE COMPANY SUED.

Eau Claire Parties Seek To Recover Ten Thousand Dollars.

Eau Claire, March 4—A case growing out of the fall of the Music hall block has been appealed to the supreme court. The suit is to recover about \$10,000 from the Fidelity & Casualty Insurance company of New York. The Phoenix Manufacturing company is the plaintiff, and the amount stated was paid by it on account of the killing and injuring of workmen employed on the building when it collapsed. The company has carried a general insurance policy with the insurance company mentioned for its employees. The defendants seek to avoid the policy on the ground that the work being done was not in the line of work in which such policy was issued.

CASUALTY COMPANY TAXES.

They Will Pay More Than \$54,000 Into the State Treasury.

Madison, Wis., March 4—The stock casualty companies doing business in the state will have to pay \$54,588.22 into the state treasury under the decision of the Supreme court in the Traveler's case before being again licensed to do business here. It is estimated that the decision will bring an added income to the state of \$10,000 a year. The United States Casualty company today paid the state \$900, that amount being due under the Traveler's decision.

Pensions For Veterans.

Washington, March 4—Pensions have been granted to residents of Wisconsin as follows:

Original—Vincent L. Benjamin, Fond du Lac, \$6.

Restoration, Reissue and Increase—Lorenzo F. Cain (dead) Hogarty, \$6 to \$12.

Increase—Harvey H. Dye, National Milwaukee home, \$8 to \$12; Henry Gebhardt, Jefferson, \$30 to \$50; Noble King, Necedah, \$6 to \$12; Kimball T. Chandler, Waupaca, \$6 to \$12; James M. Jay, Crystal Lake, \$6 to \$10.

Widows—Margaretha Bremer, Appleton, \$8; Katherine Schindler, Monroe, \$8; C. rural Cain, Hogarty \$8.

The furniture manufacturers of Sheboygan are showing an interest in the Trans-Mississippi International exposition at Omaha and will probably send a display.

Nomination papers calling on Judge Bardeen to be a candidate for the supreme bench to succeed himself are being circulated and are numerously signed.

Racine school bonds to the amount of \$25,000 were sold Wednesday at a premium of \$3,982.50 to the Milwaukee Mechanics' Insurance company.

Former Gov. George W. Peck has arrived at Fort Atkinson to spend a short time with his mother, who has been ill for some time.

State Superintendent J. Q. Emery, when asked if he is a candidate for a third term, replied that he is not.

CALEDONIANS ELECT OFFICERS

Annual Meeting of the Rock County Society of Scots

At the meeting of the Rock County Caledonian society held yesterday, the following officers were chosen for the coming year:

Vice President—James Scott.

Secretary—James Gibson.

Treasurer and Librarian—John Harvey.

Board of Directors—O. C. MacLean, Alex. Galbraith, Dr. James Mills, James Scott and P. K. Caldwell.

A committee on socials was appointed consisting of Dr. James Mills, chairman; C. C. MacLean, P. K. Caldwell, James R. Lamb, James Selkirk and James Gibson.

Resolutions of condolence, eulogy and sympathy are adopted regarding the recent passing away of David Davidson and James MacLean.

In the evening a social was given at the society's rooms. The program was an excellent one, consisting of a zither duet by Will Harvey and James Botsford, recitations by Miss Edna Murdoch and Estes Hardy, Miss Sadie Bates, a child elocutionist of much talent gave some clever recitations, which were followed by a song by Harry Robinson, a recitation by Miss Imogene McDonald, a recitation by Miss Mabel Taylor, of Oxfordville, a song by Miss Pearl Weaver, and the program was concluded with a recitation by Miss Sadie Bates and dancing.

GENERAL CLAY IS FORSAKEN

His Child Wife Leaves Him For Good and All.

Richmond, Ky., March 4—Mrs. Dora Richardson Clay, child-wife of General O. M. Clay, inspected several cottages at Valley View yesterday with a view of buying one for her future residence. Her brother John accompanied her and it is understood that he and his family will live with her.

She told the owners of the cottages who gave her prices, that General Clay was putting up the money for her. This is taken as conclusive proof that final separation has been agreed upon by her and the general, who will provide her a comfortable home.

COUNTY PAYS WELL FOR WOLF SCALPS

LOOKS LIKE A THRIVING BUSINESS FOR FARMERS.

Wolves Seem to be Multiplying in Numbers Instead of Becoming Extinct—Last Year Seven Times as Much Was Paid Out as in 1896.

The question has sometimes presented itself to the minds of the county officials whether an effort was not being made to establish a wolf industry in Rock county, and put it on a paying basis. The year of 1897 was indeed quite a profitable one for the wolf catchers, when it is considered that the day has arrived when the wolf should be a pretty scarce animal in this section. Yet the amount of money paid out in bounties in the year closing 1897 was seven times as large as the highest amount of the preceding year.

Large Bounties Paid.

County Clerk McIntyre gives the following figures for the past eight years of the exact amount of money spent each year by the county for scalps:

1890.	\$210
1891.	115
1892.	40
1893.	100
1894.	270
1895.	99
1896.	15
1897.	105

To these figures may be added the state tax.

From the first of this year till Feb. 18, the sum of \$20 has been paid out for scalps, so that it is plain to be seen that the year 1898 promises to be a "wolf year." In 1895 the county bounty was cut down from \$10 to \$5 a scalp.

SCALPS BY THE SCORE

In 1897 scalps were brought to town in wholesale lots, E. Eveland, of the town of Janesville, bringing in at one time the scalps of eight little wolves for which he received \$80 bounty from the state and county. This is the largest single capture ever made in this county. In 1894 three different litters of seven wolves each were brought in. Of late years the greater portion of the wolves have been captured in the towns of Avon, Newark, Turtle and Magnolia. As strange as it may seem but few old wolves have been captured, and in nearly every case the farmer reports them as having escaped.

CIRCUMSTANCES ARE SUSPICIOUS.

It is hardly right to insinuate that any resident of Rock county would make a business of raising wolves to dispose of to the county. Still, if any enterprising farmer has a pair of wolves on his territory he could permit them to roam undisturbed in his woodland, to eat a stray chicken or two, and bring forth their young in peace. He will find it profitable, if so disposed.

The wolf ought certainly to be well nigh extinct by this time in this section, and according to the figures of the bounties paid out in the last six months it is rapidly becoming so, unless this is not a good "wolf year."

SOUGHT SAGASTA'S LIFE

Supposed Anarchist. Arrested While Prowling Around the Premier's Home

Madrid, March 4—[Special]—A man supposed to be seeking Premier Sagasta's life was arrested today while prowling around Sagasta's house. The police think they have nipped an anarchist plot.

The wolf ought certainly to be well nigh extinct by this time in this section, and according to the figures of the bounties paid out in the last six months it is rapidly becoming so, unless this is not a good "wolf year."

DEATH CALLED HIM HOME

Jedediah Rathbun, of Beloit, died after a week's illness.

Beloit, Wis., March 4—[Special]—Jedediah Rathbun died yesterday afternoon at his home on Fourth street, after an illness of a week's duration. Mr. Rathbun's health had not been good for a long time, yet he kept at work at Fairbanks, Morse & Co.'s shop, where he was employed, until a few days ago. He was an old resident of Beloit.

WORK OF PREPARATION.

Great Activity at All the Arsenals and Navy Yards.

New York, March 4—The Carpenter Steel company, with offices at 1 Broadway, together with the Midvale Steel company, of Philadelphia, and the Firth Stirling Company, of Pittsburg, acting under instructions from their representatives in Washington today began work night and day at their plants to enable them to fill an order from the war department for \$1,000,000 worth of armor piercing projectiles to be used for coast defense.

Fears Violence.

Savannah, Ga., March 4—[Special]—Mrs. Brunner, wife of the United States health officer at Havana, has returned to her home here through fear of violence.

TRANSPORTATION OF SUPPLIES.

Norfolk, Va., March 4—[Special]—The government has an agent here engaged in making the rounds of all the railroad offices to ascertain their facilities for transporting supplies on short notice.

COAL ORDERS

COOPER MADE A GOOD RECORD

HIGHLY COMMENDED FOR HIS ATTACK UPON HUNTINGTON.

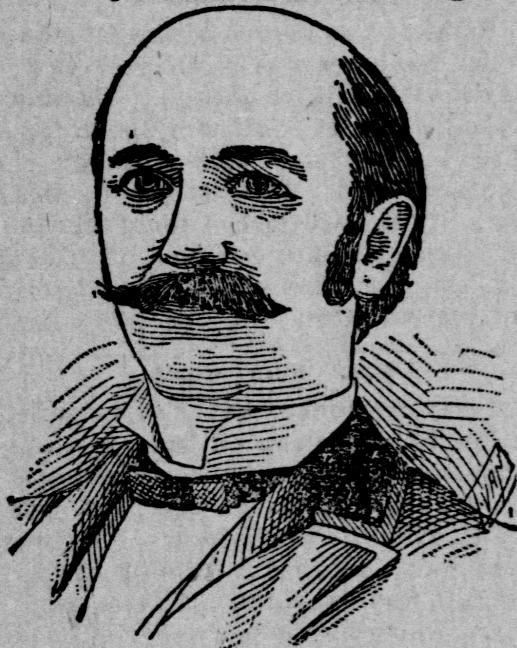

His Efforts on Behalf of a Harbor at San Pedro Approved by the People of the Coast—His Stand on the Funding Bill.

The speech made the other day by Representative Cooper of the First district on the subject of the San Pedro and Santa Monica harbors of Southern California is the sequel to the old contest waged in the house over the question of funding the debts of the Pacific railroads to the government.

In this latest speech Mr. Cooper got in a parting shot at C. P. Huntington, the prime mover in all the schemes for the benefit of the Pacific railroads in their controversy with the government. And in this connection it is worth noting that Representative Cooper can look back over his contest against the Pacific railroads funding bills with a degree of satisfaction that should be pleasing to him and his friends. He fought the funding schemes at every point, and he has the satisfaction of seeing the predictions of the supporters of the schemes come to naught, and the government is getting every dollar that is owing to it from those bond-sided lines.

Cooper's Fight For a Free Harbor

The point about the Southern California harbors, which brought out the latest scathing speech by Mr. Cooper, was directed to showing that the Huntington crowd have sought to induce the government to improve the harbor at Santa Monica, the approaches to which are owned and controlled by Huntington. The San Pedro harbor is a free harbor, the port of the important city of Los Angeles,

CONGRESSMAN COOPER.

and the great railroad combine has fought it from the beginning, in the interest of the Santa Monica project. Mr. Cooper showed up the whole scheme in his last speech and the cordiality with which his remarks were received by Californians is best shown by a sample of a dozen telegrams received by Mr. Cooper following the delivery of the speech:

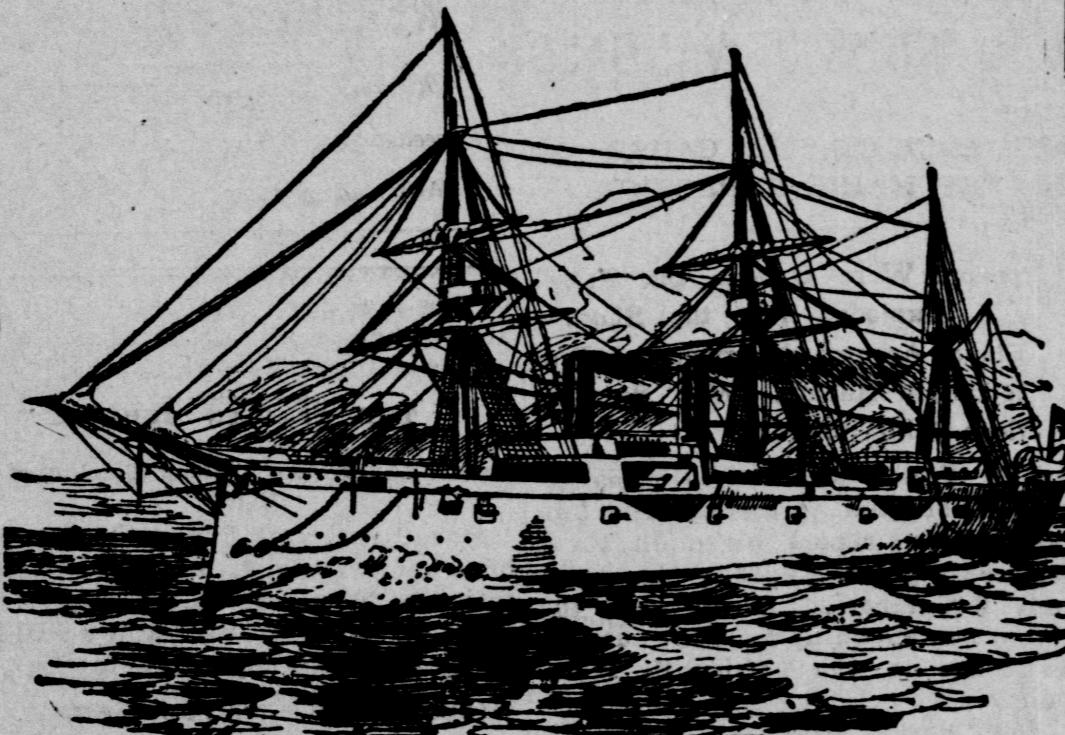

Los Angeles, Cal., Feb. 25.—The Hon. Henry A. Cooper, H. R.: Your splendid effort today in behalf of San Pedro harbor, the free harbor of the people, is appreciated in southern California. Ten thousand men will drink your health this afternoon. Signed, The Free harbor League, by John F. Francis.

One result of the speech on the harbor controversy was to recall the fact that Mr. Cooper made a fight against the Pacific Railroads Funding bill in 1895, which probably had more than any other one influence to do with the defeat of the Funding bill and bringing about the present condition of affairs, the foreclosure of the claims against the Pacific railroads, by which the government is collecting every dollar due from the roads, with interest.

Mr. Cooper was the only republican member of the Pacific railroads committee in 1895 who stood out against the funding scheme, by which it was proposed to fund for fifty years the debt due the government, at 3 per cent, making it payable in installments, the debt then being about \$138,000,000. The opposition to the position taken by Mr. Cooper comprised a large number of leading men on both sides of the then democratic house. It was claimed by the promoters of the funding scheme that if the government did not accept the funding proposition there was great danger that "every dollar of the enormous indebtedness due will be lost to the United States." In fact, that is an exact quotation from the speech of Mr. Reilly, of Virginia, the democratic chairman of the committee who was pressing the funding scheme which had been endorsed by the democratic administration. Chairman Reilly also said: "If there should be foreclosure proceedings, either upon the first mortgage, or by the government upon its lien, it cannot be expected that anybody will give for the property at a sale anything like an amount sufficient to pay the first mortgage and the indebtedness of the government."

The Great Funding Bill Contest

The movement for the funding scheme was a strong one. It was endorsed by H. A. Taylor, while United States railroad commissioner in 1892, and Mr. Taylor in a report argued against foreclosure. But the house sustained the position taken by Mr. Cooper, preferring to have the government stand the chances of foreclosure proceedings, rather than submit to the funding scheme. In the last congress Representative Cooper was le t off the Committee on Pacific Railroads by Speaker Reed, when the committee

THE AMERICAN PROTECTED CRUISER "CHICAGO."

The "Chicago" is one of ten protected cruisers in the United States navy, while the navy of Spain has but five vessels of the same class. The "Chicago" is of 4,500 tons displacement and is classed by naval experts as one of the finest vessels of the cruiser type ever built by any nation.

were organized, but Mr. Cooper remained true to the position he had taken and opposed the Funding bill when it appeared in the last congress.

The claim was made by Judge Powers of Vermont chairman of the Pacific Railroads committee in the last congress, that unless the funding scheme carried, the government

would encounter legal difficulties, and in the end would not realize 10 per cent upon its investment.

Representative Lockwood, of New York, the special friend of President Cleveland and champion of the funding scheme of the administration on the floor of the house, said: "The question before us is simply a question whether you will collect the debt that is owing by these Pacific railroads to the government, or whether you will abandon your claim."

It should be a matter of pride to

Mr. Cooper and his friends to know

that although the funding bill was

defeated and foreclosure proceedings

were instituted, as Mr. Cooper advo-

cates should be done, the government

has won every point up to this time,

and has collected every dollar due,

principal and interest. The result

fully justifies the opposition Mr. Coop-

er made to the funding scheme, and

his declaration that the government

should proceed to foreclosure and that

under such proceedings the govern-

ment would collect every dollar due

from the Pacific roads. This predic-

tion may not come true in the case of

the small Kansas Pacific line, which

starts nowhere and arrives nowhere,

but the government is sure of a good

share, and possibly all in the case of

that small road. Already the govern-

ment has collected about \$58,000,000

from the Union Pacific, and it is re-

garded as certain that the remainder,

nearly the same amount, will be col-

lected from the Central Pacific.

It was claimed in the Fifty-third

congress that Mr. Cooper's speech

killed the funding bill, and the pre-

diction he made as to the government

getting every dollar that was due from

the roads, with interest, has been ful-

filled. It was a great battle on the

part of the Wisconsin member, against

some of the leaders of his own party,

but the collections that have been

made by the government within the

last six months, aggregating more

than \$57,000,000, coming as it did in

the face of the claim of the supporters

of funding schemes that the govern-

ment would not be able to collect 10

per cent. of the debt after foreclosure,

is a great vindication of Mr. Cooper's

position in the question.

FINDING RENEWED HEALTH

The Southwest Proves Beneficial to Two

Janeville Invalids.

Fred P. King and Robert Bear, who are now in New Mexico and Arizona, are both improved in health to such an extent that they are able to work. Mr. King, who is at Phoenix, Arizona, will soon enter a furniture store in that city, in which line of business he is well posted.

Robert Bear writes from Albuquerque, N. M., that he has accepted a position in a freight office in that city, and that his health is much improved. He also writes that a son and daughter of Mr. and Mrs. William Gardiner, of this city, are now at Albuquerque for the benefit of their health.

The Fur Seal.

The fur seal is a beautiful creature, long and slender, and has a small delicate head, from which its two large eyes gaze at you with an expression almost human. Its body is covered with a heavy coat of soft, brown fur, thickly sprinkled with long white hairs, which have to be pulled out before the dyeing process that changes its color to the well known velvety black. The seal has four flippers, two in front and two behind; they are very powerful propellers enabling it with ease to catch the fish upon which it lives.—Outing for March.

C. B. CONRAD'S REGISTER

Janesville Man's Invention to be Placed on the Market

C. B. Conrad, the popular grocer, has recently invented a new cash register that bids fair to revolutionize things. The machine is exceedingly simple, cannot be falsified, and can be sold at a very low price. It is radically different from any register yet made, both in design and mechanism. A sample has been built and sent to Chicago to be exhibited. Mr. Conrad has applied for his patent, and the invention will soon be given to the public.

Mr. Conrad has shown much mechanical genius in his invention. His nickel in the slot machine was an exceedingly good device, but the cash register is a better one.

THE SALOON KEEPERS ESCAPE

They Pay No Penalties for Infractions of the Law.

"It looks to me as though the police of this city couldn't get justice any more in the local courts," said a police officer yesterday, "and especially I refer to the saloon cases that have been brought up of late. No matter how strong the evidence is, it is almost an impossibility to get a jury to convict a saloon keeper." The police had evidence in hand this week, of a West Milwaukee street saloon keeper who disposed of liquor on Sunday, but as yet they have failed to swear out a warrant for his arrest, for it is said they doubt much about his conviction.

Afton.

Afton, March 4—It is not a common occurrence to have two birthday anniversaries come on the same day in the same family, but last Monday, February 28, was celebrated as such at the home of W. J. Miller, the date marking the seventieth birthday of his father, Lyman H. Miller, and the fortieth natal day of his wife, Hattie A. Miller. The double anniversary was marked by a small but pleasant family gathering. There was a large attendance at the Wednesday evening meeting of the historical club, at which the colonial history of New Hampshire, Rhode Island and Connecticut was considered and a new feature introduced in the spirited discussion of current topics of importance. H. Key Humphrey, a former Afton boy, but of late years a resident of Green county, has again come to live among us and will make his home with his uncle, J. B. Humphrey. Oscar Watts and family have moved into the north rooms of Mrs. E. J. Antisdel's house, and the former house made vacant by their removal, will be occupied by Edward Coates. Fred R. Eldredge is once more at home and will have charge of his father's farm the coming season. Aftonians anticipate a pleasant and instructive time next week at the institute round up and midwinter fair. There will be good delegations present from the vicinity each day. The train service is admirable for those who desire to attend the evening session, the 10:30 p. m. passenger from Janesville to Beloit affording the necessary means for returning home at close of session.

After years of untold suffering from piles, W. B. Purcell of Kutztown, Pa., was cured by using a single box of DeWitt's Witch Hazel Salve. Skin diseases such as eczema, rash, pimples and obstinate sores are readily cured by this famous remedy. People's Drug Co.

ON THE MOVE ::

NEWS FROM THE MORNING PAPERS

Washington, March 4.—Judge Day the assistant secretary of state, and the closest confidential friend of President McKinley, says that in the absence of any information, either official or unofficial, as to what will be the finding of the naval board of inquiry, the administration can have no policy regarding the destruction of the battleship Maine. Judge Day sees no reason why the naval board should not make its report next week. That would end the present suspense and enable the president to decide upon a policy.

Judge Day is the confidential friend of the president, and has been for many years. He knows the personal views of the president better than any other man. He is a consistent friend, and keeps his lips sealed regarding the personal opinions of his friend and his chief. He realizes that the president must be the judge to pronounce sentence on Spain if she is guilty of blowing up the battle-ship and to fix the responsibility if the ship was blown up by other than Spanish officials.

It would ill become the president to have an opinion or a policy regarding a question which is on trial, until he has the report of the board of inquiry and knows what is the evidence. It is stated most positively by Assistant Secretary Day and by Secretary Alger that the administration has no information which has not been made public, and it can have no opinion until it knows the facts as they will be revealed by official investigation.

General Alger said: "There is not an iota of information as to the cause or origin of the explosion upon which the government can at this time form a conclusion or base a decision. The verdict of the court of inquiry on that point must patiently be awaited."

President McKinley has had but one policy calling for action at this time. That is to be prepared for any emergency that may come. He has neglected nothing that could be done to be prepared for war, if war should be the outcome of this affair.

HARBOR WAS DRAGGED.

Care Taken by Capt. Sigsbee—No Mine Was Below the Ship.

New York, March 4.—A dispatch from Washington to the Herald says: "Theories that the Maine was destroyed by a stationary submarine mine on the bottom of Havana harbor are much weakened by information which I have received tending to support General Weyler's declaration to the Madrid correspondent of the Herald that no mine had been laid down in the harbor of Havana."

"I was informed that the navy department has evidence that the night after the arrival of the Maine in the harbor Captain Sigsbee had a careful investigation made by means of a steam launch and a drag at the end of a line to ascertain whether there was a mine of any kind below the ship. I was told that the investigation covered all the area in which the ship would drift in swinging at her moorings with the changing tide. Nothing suspicious was found, according to my informant."

"This information has not in any way strengthened the theory that an accident inside the ship was responsible for her destruction. That is too completely contradicted by the evidence which has already been submitted to the court of inquiry, as shown by the Herald's dispatches from Havana and Key West."

STAND BY PRESIDENT.

Party Lines Will Disappear in Event of War with Spain.

New York, March 4.—The Washington correspondent of the Sun says:

"Whatever action President McKinley may decide to take to effect a settlement of the Cuban question, he will undoubtedly have the unanimous non-partisan support of the American congress."

"A Democratic senator some days ago drew up a resolution, expressing it to be the sense of congress that the hands of the administration should be upheld, no matter at what cost, in any controversy with Spain that should go beyond the limits of diplomatic conference and correspondence. A canvass of Republicans, Democrats and Populists showed that such a resolution would be passed promptly. It has not yet been introduced, because it is not certain that a time will ever come when its passage would be timely or wise."

Shot and Shell for Frisco.

San Francisco, March 4.—The war department has issued orders for the immediate transfer of ammunition for the Benicia arsenal to this city. The object is to supply the needs of the batteries and heavy ordnance at the Presidio and Blackport, which constitute the most important harbor defenses of San Francisco.

Report of Spanish Diver.

Havana, March 4.—Consul General Lee says he understands the report of the Spanish divers, soon to be made, will be brief and to the effect that the bolts on the sheeting of the sides of the Maine were sheared in all cases so evenly as to prove conclusively that the initial explosion must have come from within.

Lancaster to Be Equipped.

Portsmouth, N. H., March 4.—Orders have been received at the navy yard to make the outfit for the United States steamship Lancaster with the quick-

est possible dispatch. It is expected that the Machias and Essex will be made ready for service at the Portsmouth yards at once.

Check from President Dole.

Washington, March 4.—A substantial evidence of sympathy for the survivors of the Maine and the families of the victims was received at the navy department Thursday in the shape of a check for \$500 from President Dole of Hawaii. The money was turned into the Maine relief fund.

Call to Loyal Spaniards.

City of Mexico, March 4.—A manifesto signed "A Spaniard" has been profusely distributed here. It refers to the immorality of war between Spain and the United States and is a patriotic call on Spaniards to come to the rescue of their own country, which, as the manifesto states, has been wantonly proclaimed by the most powerful nation. The manifesto states that it is for the Spaniards to prove their patriotism and self-sacrifice. The manifesto contains no insults to Americans.

Would Welcome Japan.

New York, March 4.—General Merritt, when asked concerning the participation of Japan in a struggle with Spain and whether the United States would be in a position to welcome the mikado's troops as combatants, declared that the contest with Spain could be successfully waged alone by the United States.

One More Body is Recovered.

Havana, March 4.—Another body was recovered from the wreck Thursday, but there was absolutely no means of identification.

WILL MEET IN MAY.

Indiana Republicans Fix Date for Congressional Convention.

Wabash, Ind., March 4.—Fourteen ballots were needed at the eleventh district Republican committee meeting here Thursday to settle the time for holding the congressional convention.

Major Steele of Marion was determined upon at an early convention and was supposed to have a majority of the committee with him, but the other three candidates doubled up and forced a compromise, May 19 being decided upon. Logansport was the only bidder for the convention and was unanimously chosen.

May Call an Extra Session.

Lansing, Mich., March 4.—Talk of an extra legislative session has been rampant in Michigan by spells for several months. Gov. Pingree wants to call the legislature together to enact anti-railroad legislation, insisting that the railroads ought to pay more taxes, but most of his advisers frown upon the scheme. Several conferences have been held recently upon the subject, but no decision has been reached. The opinion prevails that the extra session will soon be called.

Germany Will Not Let Go.

Berlin, March 4.—The semi-official North German Gazette says the following passage occurred in the speech which Emperor William delivered Tuesday last at Wilhelmshaven upon the occasion of swearing in the naval recruits there: "Where the German eagle has seized hold and fixed its claws, that country is German, and will remain German."

Iowa Coal Miners Meet.

Oskaloosa, Iowa, March 4.—The state meeting of the Iowa coal miners was held here Thursday. J. W. Reynolds of Beacon presided. Strong efforts are being made to complete the organization in every mining camp in the state. It is claimed that 3,887 miners are represented in this convention by delegates.

Dr. Jennie Taylor Gordan Dead.

Alameda, Cal., March 4.—Bishop William Taylor, of the Methodist church, has received news of the death of his niece, Dr. Jennie Taylor Gordan, who was known to all interested in foreign missions as Dr. Jennie. She expired at Malange, Angola, Dec. 29. Her husband is an African missionary and her parents reside at Mechanicsburg, Pa. She was noted for her medical skill.

Sympathy for Sigsbee.

Havana, March 4.—Captain Sigsbee has received a letter written by General Jacinto Hernandez expressing sympathy for the loss of his ship and crew. General Hernandez feared to address Captain Sigsbee personally, as it might be misunderstood, so he addressed his letter to an American who is in the field with Gomez. The letter was then forwarded to this city.

Brakeman Killed in a Wreck.

Milwaukee, Wis., March 4.—An accident occurred on the Wisconsin Central railroad at Franklin Park, Ill., at midnight Wednesday night. Two Waukesha men were in the wreck, and as far as known were the only ones who received injuries. David Jennings, a brakeman, was killed, and William Painter, a fireman, severely injured.

Senators Reject Hanna's Man.

Washington, March 3.—The senate committee on commerce decided by unanimous vote to report adversely the nomination of Henry Demas to be naval officer at New Orleans.

Buy five or ten dozen of these 8 cent oranges while you can; they won't last long. Sanborn.

CANADIANS GRAB TERRITORY.

Custom House Established by Their Officers at Crater Lake—Skagway Death Rate Averages Fifteen Daily—Gold Dust Could Not Keep Off Death.

Victoria, B. C., March 4.—Passengers on the steamer Islander, which reached here late last night from Skagway, confirm the report that the Canadian flag has been raised at Summit Lake, also that the Canadians will establish a custom house at Crater Lake.

Martial law has been declared at Skagway, and the United States troops who went up on the Queen are enforcing law.

The attempt to float the steamer Concora has so far been a failure.

The death rate at Skagway averages 15 daily, one of the latest victims being the postmaster.

The Bodies in the Clara Nevada.

Seattle, Wash., March 4.—A letter has been received by the owners of the ill-fated steamer Clara Nevada, from Sanderson Reed of Portland, who was sent north to search for the body of his friend, Purser George Foster Peck, and for the bodies of other members of the crew and passengers. Reed says in his letter that he has visited the scene of the wreck in the steamer Rustler, and has made a careful examination. Most of the bodies of those who went down with the vessel will be found near the wreck, he thinks. Divers will be sent north to search for them.

Children and adults tortured by burns, scalds, injuries, eczema or skin diseases may secure instant relief by using DeWitt's Witch Hazel Salve. It is the great Pile remedy. People's Drug Co.

Storm Bothers the Divers.

Havana, March 4.—The operations of the divers were interrupted by a heavy thunderstorm on Thursday. Senator Proctor may leave Havana Saturday for home, though the time of his departure is not decided. Should he remain here until Wednesday he will probably take a trip into the province of Pinar del Rio with Superintendent Elwell of the Red Cross society. The United States light house tender Manatee and the naval court of inquiry into the loss of the battle ship Maine arrived here today.

Long Enters a Denial.

Washington, March 4.—Secretary Long today authorized an absolute and positive denial of a report asserting that a partial or preliminary report had been received by the government from the Maine inquiry board indicating or declaring that the loss of the Maine was due to an external explosion. He said that no report of any kind had been received and that the public had all the information that had been received.

Ready to Occupy Wei-Hai-Wei.

Shanghai, March 4.—The China Gazette says Great Britain will occupy Wei-Hai-Wei in the event of Japan withdrawing from that port.

Fifty Deaths Daily.

Bombay, March 4.—An epidemic of "black lister" has broken out in the state of Hyderabad. Fifty deaths are occurring daily.

A PECULIAR FACT.

Thousands of People Have Dyspepsia in Its Worst Form and Do Not Know It.

A weak stomach is the cause of about one-tenth of all diseases, yet in most cases the wrong thing is treated and the true cause overlooked.

This is because a weak digestion produces symptoms resembling nearly every disease because it weakens and disturbs the action of every nerve and organ in the body; poor digestion causes heart trouble, kidney troubles, lung weakness, and especially nervous break down or nervous prostration, the nerves cannot stand the wear and tear unless generously fed by well digested, whole some food.

Keep the digestion good and no one need fear the approach of disease.

Mrs. H. F. Lee, of Rochester, N. Y., writes: For the sake of suffering humanity I want to say that from a child I had a very weak stomach, threw up my food very often after eating, and after few years nervous dyspepsia resulted and for more than twenty years I have suffered inexpressibly.

I tried many physicians and advertised remedies with only temporary relief for nervous dyspepsia and not until I commenced taking Stuart's Dyspepsia Tablets last September, six months ago, have I been free from suffering caused by the condition of my nerves and stomach; in short, chronic nervous dyspepsia.

I have recommended Stuart's Dyspepsia Tablets to many of my friends and now I want in a public way to say they are the safest, pleasantest and I believe surest cure for stomach and nerve troubles. I write my honest opinion and I will gladly answer any letter of inquiry at any time and feel that I am, in a small way, helping on a good cause.

Stuart's Dyspepsia Tablets is not a patent medicine, but they contain only the fruit salts, digestive acids and peptones necessary to help the weak stomach to promptly and thoroughly digest food.

All druggists sell Stuart's Dyspepsia Tablets at 50 cents for full sized package and anyone suffering from nervous dyspepsia, sour stomach, headaches, acidity, gases, belching, etc., will find them not only a quick relief but a radical cure.

Send to Stuart Co., Marshall, Mich., for little book describing cause and cure of stomach trouble giving symptoms and treatment of the various forms of indigestion.

THIS DAY IN HISTORY

1742—Count Casimir Pulaski,
American Revolutionary
soldier, born in Podolia,
Poland; died of battle
wounds, near Savannah,
1779. Count Pulaski was
the son of a Polish patriot.

Exiled in 1772 he settled in
America and entered the
patriot army. It was for
his legion of horsemen that NOAH PORTER,
the Moravian women of Bethlehem, Pa.,
embroidered a banner.

1803—Thomas Starr King, Unitarian preacher
and most eloquent man of his time, died in
San Francisco; born 1824.

1822—Alexander H. Stephens, vice president of
the Confederacy, died at Atlanta; born 1812.

1822—Noah Porter, educator and ex-president
of Yale college, died at New Haven; born
in Farmington, Conn., 1811.

1825—Rev. Daniel Vrooman, a pioneer mission-
ary in China, died in San Francisco; born
1817.

1829—Professor John Kraus, a pioneer in kin-
dergarten work, died in New York city;
born 1815. Dr. Hirsh Corson, a specialist
and writer on medical treatment, died at
Plymouth Meeting, Pa.; born 1804.

PRAISES PRESIDENT MCKINLEY.

The New York Times has been
quick to seize every opportunity to
criticize anything done by a republi-
can, but in the present emergency The
Times rises above partisan consider-
ations and commends President McKin-
ley in the following language:

"No Latin race, we imagine, would have kept
its head as well as the American people have
kept theirs during the disturbing events of the
past two weeks. In Spain or France or Italy
there would have been tumultuous assemblages,
much outcry in the streets and incitments to
riot. Outside of the reckless newspapers there
has been no raving here. But the president has
furnished the most conspicuous instance of san-
ity and wisdom. His perfect calmness has not
been for a moment disturbed. His judgment
has been faultless. He has made no mistake.
Mr. McKinley has shown no desire to make
personal or political capital out of the grave
matters with which he has had to deal. He has
done no posing. He has not invited the atten-
tion of the nation, but has performed his high
duty with as little fuss and ostentation as he
would have exhibited in labors of the duller
routine. Such a president is the despair of
lingoes, but he inspires the country with a feel
of confidence."

The Times voices the sentiment of
the thinking people. Papers of the
Chicago Chronicle's stripe may rail at
the president because he does not per-
form to suit them, but honest demo-
cratic papers—the ones that can for-
get party in the cause of American
welfare—give him the staunch sup-
port that every good citizen owes the
government when trouble impends.

AMERICAN RESIDENTS PROTEST.

The lie is given the yellow New
York papers by the American resi-
dents of Havana. At a meeting re-
cently held emphatic resolutions con-
demning the sensational reports which
are being sent to certain New York
papers were adopted. They deny that
Americans are insulted on the streets,
and assert that, on the contrary, every
citizen of the United States is treated
with respect. But the yellow papers
will pay no attention to the resolu-
tions. The owner of the largest and
yellowest is said to have made a bet
that his paper could force Spain and
the United States to go to war. That
is why he telegraphed his Havana cor-
respondent "d—n the truth, send us
something that will sell the paper!"
This New York paper also sells its
news to other papers, and Janesville
people read it in a Chicago paper that
also wants to see a war. Such papers,
however, will find it a harder job to
tampete the people than they imagine,
for the average citizen can very readily
discriminate between the ring of truth
and the clang of lies.

RELIGIOUS CRANK "TURNED DOWN"

The great American crank is now
in his glory and bobs up all over the
country. They do not always come
out as they expect, however, as is
shown in the case of a Catholic priest
at Rondout, New York, who made the
statement that if war should break out
between Spain and the United States
all Catholics should fight for Spain.
Half his congregation had left his
church before he finished speaking
and twenty-four hours afterwards he
had been removed from his pastorate at
the unanimous request of his parish-
ioners.

The Chicago Tribune says "war now
exists; it was declared when the Span-
iards blew up the Maine." The Tribune
would appear to need a guardian,
and it is suggested that Governor Tan-
ner would be a good man for the
place.

The manufacturers of boat oars have
formed a trust. There is no indica-
tion that the organization will break
up in a row, but, on the other hand,
smooth sailing is assured if the mem-
bers will pull together.

The former chief of police at Muske-
gon, Mich., was caught in Chicago
suspiciously near a piece of lead pipe.

encased in flannel, and as the former
policeman had once been convicted of
burglary, the general supposition is
that he was using the lead pipe in the
usual Chicago way.

The Milwaukee Journal exults over
the statement that "Milwaukee is a
poor place to die in" evidently all un-
mindful of the old saying concerning
the time of the taking off of the truly
good.

The Milwaukee Sentinel is to be
commended. The Sentinel has not
found it necessary to print "news"
from the Key West factory, but has
given its readers only what it could
vouch for.

The Fond du Lac Commonwealth
says: "Milwaukee is in the same im-
perial boat with Fond du Lac. It is
discussing the question of how to im-
prove the common council."

President McKinley's course is being
commended on all sides, but nothing
less than a torpedo will bring Billy
Mason back into prominence even for
one fleeting moment.

GOT BALM FOR A
BROKEN HEART

GERTIE TAUROG RECEIVES A
\$1,000 PLASTER.

Her Conquest of the Love of Louis Udelowish Was But Temporary—He Poppe the Question in a Chicago Park—A Settlement Effect.

Judge John R. Bennett, during his many years of service in Rock and Green county courts, has seldom presided over a more interesting breach of promise suit than that which occupied his attention in the Green county court at Monroe yesterday.

The case was that of Gertie Taurog vs. Louis Udelowish, the plaintiff suing for \$10,000. After an all day wrangle in the court the case came to a settlement between the interested parties themselves, the plaintiff taking \$1,000 as final judgment.

An Engagement Admitted.

The engagement conceded by the defense, and all the circumstances surrounding the meeting and the few weeks of courtship that led up to the promise to marry undisputed and agreed upon between the plaintiff and the defense, the case had resolved itself into one conversation at the home of the mother of the defendant, and in respect to what took place at that time there was a flat contradiction in the testimony of the two parties.

Miss Taurog was the first witness. She stated that she was twenty years of age on September 1, 1897. She was born in Russia. Her mother died when she was but two years of age. Three years ago she came to America and made her home with her brother-in-law, Simon Seubitz, at 290 West Lake street, Chicago. She met the defendant in June, 1897, at her home. He came there with his mother and a lady who was a friend to the plaintiff's sister. His mother was there once before to see the plaintiff and it was understood that the object of the visit was to make a match between the girl and her son, the defendant in this case.

Proposed in a Park

On the Monday evening following, Aug. 15, he brought her a box of candy and they spent the evening until 11 o'clock at Union park, and it was there that he made the proposal of marriage which was accepted by her. Arrangements were at once made for an engagement party, it being in accordance with the wishes of the relatives that there should be one. Sunday evening, Aug. 22, was the date agreed upon for the party, and relatives and friends to the number of twenty-eight were invited. The full Jewish ceremony was carried out. They had supper, danced, sang and all was as merry as could be. The young lady was presented with a watch and charm by the parents of the defendant, and he gave her a diamond ring. The engagement contracts were signed and each party was given one.

Love's Dream Ended.

One night soon after the engagement was announced, the groom-to-be called on the bride-to-be and told her that he did not think they could live happily together, that he had loved her and his folks had liked her, but his mother was sick on account of her crooked thumbs, and he wanted the engagement broken. The suit then followed, the last and final chapter of which was enacted before Judge Bennett, yesterday afternoon.

WHY SHE TREMBLED.

Nellie—What makes you so nervous, Jennie?

Jennie—I am all in a tremble. Mr. Bondcliper is going to ask papa for my hand this afternoon.

Nellie—are you afraid that your papa will refuse?

Jennie—No; I am afraid Mr. Bondcliper will not show up.—N. Y. World.

THE SECOND VESTIBULE

Another Palace Train Passes Through the City to St. Paul.

Last night the second of the new vestibule trains on the Chicago & Northwestern road passed through this city for St. Paul. It was in every respect equal in equipment to its forerunner of the previous evening and it excited the most unqualified admiration of a large crowd assembled to witness its passage. The train had a full complement of through passengers, who expressed their delight in having the privilege of traveling amid such luxurious surroundings.

The two palace vestibules will alternate their trips between Chicago and St. Paul, and if they do not become all the rage with the traveling public it will not be the fault of the company, which has spared no expense in their furnishings and equipment.

TELEPHONE LINE COMPLETED

New Metallic Line to Beloit Finished Yesterday.

The new metallic line erected by the Wisconsin Telephone company between this city and Beloit was completed yesterday and the first messages were transmitted today. The entire line has been built at a large cost as the work has taken several days to complete. The object in erecting this new steel line was to give this city more direct telephone communication with Beloit and also to relieve the present copper metallic line which runs via Beloit and which will be used more for direct Chicago business.

THE GROWER GETS LEFT.

The man who grows oranges in California does not always make much of a showing as far as profit is concerned. Sanborn received thirty cases of oranges and is selling them at 8 cents per dozen, each case containing twenty-four dozen of the fruit, which brings a total of \$1.92 per case. The freight from California to Janesville on each case is \$1.20, boxing and packing 40 cents, packing 26 cents, total \$1.86, leaving a profit to the grower of 6 cents a case. The commission men and Sanborn sell the goods for fun. Come in tomorrow if you expect to get any of the fruit.

IF WE SHOULD HAVE WAR.

In case of a war between the United States and Spain the island of Cuba would be freed from Spanish rule much more easily than is generally imagined. This country would not need to send a large army to the island to fight the Spaniards in the field. Neither would it need to bombard Havana nor attack it in any other way. Perhaps the war would end, as far as Cuba is concerned, without the Americans firing a single shot either by land or sea. Though these statements may at first appear astonishing, they are merely the logical conclusion to be derived from knowledge of the real state of affairs in the struggling island.

The Spaniards, with an army of 150,000 men, of which not 90,000 are regular troops, all that is left of the 200,000 soldiers sent from Spain since 1895 and decimated by battle and sickness, control only the seaports and the strongly fortified towns in the interior. The country from east to west is in the hands of the insurgents. The eastern part of the island, including Santiago de Cuba and Puerto Principe, is held by the Cuban Generals Calixto Garcia, Jesus Rabi and Lope Recio Loynaz. There the Cubans are stronger than in any other section of the island. They have in these two provinces 20,000 men at least, armed and with plenty of ammunition. There they hold the Spanish columns in constant check, and the recent defeat of General Pando in Santiago de Cuba, at the entrance of the Canto river and of General Jimenez Castellanos at La Esperanza, almost within sight of Puerto Principe city, show conclusively what the power of the Cubans is in the east.

The central part of the island—that is to say, the province of Santa Clara—is controlled by General Maximo Gomez. The Cuban commander in chief has at least 10,000 men there under his orders, with Generals Carrillo, Monteguado, Alvarez and several others as subordinate commanders.

There are about 5,000 insurgents in the provinces of Matanzas and Havana. This is where the Cubans are weakest, the Spanish fortified towns being nearer to one another and the Spanish army more numerous. But, nevertheless, they have strength enough to keep up a very lively guerrilla warfare, raiding almost daily the most important towns and making dashing attacks on the outskirts of Havana city itself. The recent death of their plucky leader General Aranguren, has not abated their ardor. General Betancourt, General Alejandro Rodriguez, General Rafael de Cardenas and Colonels Davalos, Collazo and others are cutting out a great deal of work every day for the Spanish and the guerrillas in Havana and Matanzas provinces.

Pinar del Rio province, the western extremity, is a Cuban stronghold. The Cubans there are as strong as in Santa Clara and hold the long and impregnable chain of mountains extending through the province. They do not allow the Spaniards to get out of their towns. Generals Delgado and Ducasi are the principal Cuban leaders in that province.

The result of this situation is that the Spaniards cannot exist on the products of the country in any part of the island. The country near the towns was laid waste by General Weyler, and the gaunt specter of famine stalks all over Cuba. The extermination of the peaceable inhabitants by hunger is going on rapidly. All these facts are too notorious to be denied at this time. The reconquistadores, or noncombatants, starve and die by thousands only because the country, on which they exclusively depend, is not producing food. The insurgents keep zones of cultivation of their own, where they raise vegetables and store their cattle, but they do not divide their provisions with the noncombatants, nor do they allow vegetables to be raised or cattle kept by any one but themselves, because it is their policy to prevent the Spanish army from obtaining any kind of resources in the country.

The Spanish army therefore exclusively depends upon the provisions imported from abroad. Rice, beans and flour they receive from Spain. Meat for the inhabitants of the seaports they obtain from Mexico and Florida. The 150,000 Spaniards under arms exclusively depend upon steamers loaded with provisions from abroad that enter the Cuban ports.

Not a potato comes into the city of Havana from the country. The milk is almost all condensed and imported from the United States. Eggs and vegetables are from Florida, and, what is still more important, on account of the great financial distress in Havana the importing merchants do not keep a large stock of provisions. If the imports are stopped, the entire supply of food in Havana will be exhausted by the 200,000 inhabitants of the city in less than a week.

Suppose now that war is declared one of these days. The United States in that case has only to blockade the seaports of Cuba to starve out the whole Spanish army, and that without landing a single man on the island. The Spaniards will simply be compelled to surrender because of the lack of food.

To prevent the possibility that they might make a desperate effort inland to overpower the insurgents and get their vegetables and other provisions something might be done easily, quickly and at once. There are many seaports of some importance in Cuba absolutely defenseless from the seaside. Cardenas, for

instance, in the province of Matanzas, on the northern coast, is one of them. Cardenas was taken in 1849 by the insurgent Narciso Lopez with a handful of Americans on board a small merchant vessel. Since then no fort capable of resisting a cannon shot has been built there. The Americans can hold Cardenas and from there communicate with the insurgents in the country. In a short time the whole Cuban army may be

THE ST. LOUIS PLATFORM.

Republican Congressional Committee

Ready for Business.

Washington, March 4.—The executive committee of the Republican congressional committee is announced as follows: Representatives J. A. T. Hull of Iowa, J. G. Cannon of Illinois, D. H. Mercer of Nebraska; Senators Redfield Proctor of Vermont; J. H. Gallinger of New Hampshire, John L. Wilson of Washington, and Representatives J. T. McCleary of Minnesota, H. C. Louden slager of New Jersey and Richmond Pearson of North Carolina.

Representative McCleary of Minnesota will have charge of the literary department of the congressional committee. This is an important post, as a large amount of Republican literature will be put out this campaign and circulated throughout the country. Chairman Babcock of the congressional committee said: "The coming campaign will be fought out on the lines of the platform adopted at St. Louis. That will be our only guide, save as new issues are created, as contingencies arise and new policies are made in congress. No committee has a right to make a platform for the party, and so we will be governed by that adopted in 1896."

BANK FOR A CONTINENT.

Big Institution Is Projected—Its Object Is to Keep Money at Home.

Chicago, March 4.—An international American bank, with a capital of \$25,000,000, is a project just now engaging the attention of American capitalists and business men. Bills have been introduced in the senate and house of representatives at Washington granting a charter to the proposed corporation and defining its rights and duties.

It has been ascertained that 90 per cent of the banking business between the United States and South American countries is done by London bankers. For their services they take an average commission of three-quarters of 1 per cent, which means an enormous total. To keep this money at home and increase the business of the country is the object of the proposed international bank.

Spaniards Are Worried.

Madrid, March 4.—The public is much exercised over the report of the presence of a squadron of United States war ships at Hong Kong, as it is presumed the vessels intend to threaten Manila, the capital of the Philippine islands, in the event of war between the United States and Spain.

The Impartial, in an article headed "To Manila, to New York," quotes an unnamed high personage who scouts the idea of imminent rupture, and says: "The presence of the war ships at Hong Kong is only Washington's policy with the view of contenting the jingoes."

The "high personage" is said to have added: "But America has not so many war ships as to warrant such bold action. If the Yankees go to the Philippines the Spaniards will go to New York."

KAPIOLANI'S ESTATE.

The Queen Dowager Bestowed Her Entire Property on Her Nephews.

One of the largest realty transfers recorded on the Hawaiian Islands was

made on Feb. 11, when Queen Dowager Kapiolani died in fee simple to her nephews, Princes David and Cupid Kahanhoa, all her property, both real and personal. The exact value of Kapiolani's estate is unknown. The queen dowager receives no consideration. In the transfer it is stipulated that the princes will pay all outstanding debts against their aunt, including a mortgage on the property. She is also to receive the sum of \$1,000 a month during the remaining years of her life.

Kapiolani made the transfer for two reasons. One is that her nephews, who were made princes by the late King Kalakaua, should have something more than their titles, and, as Kapiolani has had two strokes of paralysis, and her nephews, who are her favorites, would be the heirs of her estate, she preferred to turn the property over to them while she is alive.—New York Tribune.

A Dawson City Idyl.

A Dawson City mining man lay dying on the ice. He didn't have a woman nurse—he didn't have the price—

But a comrade kneeled beside him as the sun sank in repose.

To listen to his dying words and watch him while he froze.

The dying man propped up his head above four rods of snow.

And said: "I never saw it thaw at ninety-eight below."

Send this little pinhead nugget that I swiped from Jason Dills.

To my home, you know, at Deadwood, at Deadwood in the hills!

"Tell my friends and tell my enemies, if you ever reach the east,

That this Dawson City region is no place for man or beast;

That the land's too elevated and the wind too awful cold,

And the hills of South Dakota yield as good a grade of gold.

Tell my sweetheart not to worry with a sorrow too intense,

For I'm going to a warmer and a far more cheery hence.

Oh, the air is growing thicker, and those breezes give me chills!

See, I wish I was in Deadwood, in Deadwood in the hills!

"Tell the fellows in the home land to remain and have a cinch;

That the price of patent pork chops here is eighty cents an inch;

That I speak as one who's been here scratching round to find the gold,

And at ten per cent of discount I could not buy up a cold.

Now, so long!" he faintly whispered. "I have told you what to do."

And he closed his weary eyelids and froze solid p. d. q.

Friends procured an organ box and o. o. d. the bills

And sent the miner home that night to Deadwood in the hills!

A LETTER TO WOMEN.

A few words from Mrs. Smith, of Philadelphia, will certainly corroborate the claim that Lydia E. Pinkham's Vegetable Compound is woman's ever reliable friend.

"I cannot praise Lydia E. Pinkham's Vegetable Compound too highly.

"For nine weeks I was in bed suffering with inflammation and congestion of the ovaries. I had a discharge all the time.

When lying down all the time, I felt quite comfortable; but as soon as I would put my feet on the floor, the pains would come back.

"Every one thought it was impossible for me to get well. I was paying \$1 per day for doctor's visits and 75 cents a day for medicine. I made up my mind to try Mrs. Pinkham's Vegetable Compound. It has effected a complete cure for me, and I have all the faith in the world in it. What a blessing to woman it is!"—Mrs. JENNIE L. SMITH, No. 224 Kauffman St., Philadelphia, Pa.

Cost over \$100,000 to publish. Contains nearly 200 full-page engravings of our Saviour, by the great masters. Every picture is reproduced from some famous painting. Agents are taking from three to twenty orders per day. The book is so well made that it can be used as a writing book.

Want it? The Hermitage, Prado, Uffizi, Pitti

Louvre, Vatican, National of London, National of Berlin, Belvedere and other celebrated European galleries have placed their greatest and rarest treasures at our disposal that they might be engraved for this superb work. "FIRST GLANCE AT THE MASTERS' PICTURES, BRIGHT GLASS TO MY EYES, 1897."

"I paid \$150 first week's work with the book," says another. "Some high grade man or woman should secure the agency here at once!" says every editor. "as \$500 can soon be made taking orders for it." Nearly \$10,000 expended on new plates for edition coming from West. Also a man or woman of good social standing can secure the services of Manager and Corresponding of this territory, to devote all his time to employing and drilling agents and corresponding with them. VOTE WAS A DECISIVE ONE.

NEW TRIAL ASKED.

Change of Venue Likely in the Drainage Case.

Joliet, Ill., March 4.—A climax is likely to be reached in the celebrated drainage canal case today, when a discharge of the jury and change of venue will be demanded by the drainage attorneys.

Frederick W. C. Hayes, attorney of the sanitary district, positively declared that in order to secure a fair verdict he would insist on an immediate discharge of the present jury.

This action has been hastened by the developments of Thursday, in which the lines of battle now drawn clearly indicate, he believes, an intense local prejudice against the drainage board. This has been intensified by congratulations tempered with offers of "moral and material aid" showered upon John P. King, J. C. Carliss and Henry Feil, three of the men accused of attempting to influence the jury, who were purged of contempt in Judge Hilscher's court.

All Joliet rejoices in their vindication. In the eyes of their fellow citizens they now stand as innocent men.

TO TEST DUN'S LIABILITY.

C. F. Gilman of Omaha Files a Suit of Great Commercial Interest.

Omaha, Neb., March 4.—The liability of commercial credit companies for loss sustained by mercantile concerns in sales to merchants on the strength of ratings given by the credit companies to the members is about to be tested in the local courts. C. F. Gilman of Omaha has sued the R. G. Dun company for \$292. This is the value of a bill of goods Gilman sold to a Hiawatha (Kas.) merchant on credit and which he was unable to collect. The petition relates that the credit was extended on the strength of rating secured from Dun, who was under contract to furnish the plaintiff ratings on all firms in the United States. Dun's rating of the Hiawatha merchant gave that gentleman credit for having \$50,000 above his liabilities and good pay. The petition of Gilman asserts that the firm is judgment proof and nothing can be collected on the bill.

Many Congratulate the Pope.

Rome, March 4.—The pope Thursday received in separate audience each member of the diplomatic corps accredited to the holy see who called to congratulate his holiness upon the twenty-first year of his pontificate, which opens today. Afterward there was a commemorative mass in the sistine chapel. Cardinal Vannutelli celebrated mass, and at its conclusion the pope intoned the Te Deum and pronounced the apostolic benediction. There was an immense congregation present, and his holiness was warmly acclaimed.

Canadian Concession Denied.

Ottawa, Ont., March 4.—At last night's session of the house a member of the opposition called the attention of the government to the dispatch from Washington stating that the Canadian government would hereafter allow American vessels to transport merchandise from one Canadian port to another, and asked whether such report was correct. The premier in reply said that there was no truth in it.

Ban on Gold Contracts.

Frankfort, Ky., March 4.—The house of representatives Thursday passed by a party vote an act to prevent the making of a contract payable in gold and making such a contract null and void. The bill is substantially a copy of the Nebraska law, and prevents the discrimination of either metal against the other, and declares both gold and silver legal tender in payment of debt on exactly the same terms.

Hedley Case with the Jury. Carlinville, Ill., March 4.—The Hedley case went to the jury last night. During the day the attorneys made their pleas, the combined time consumed by the speakers being nearly twenty-four hours. Capt. Hedley is confident of acquittal. The general opinion is that he will be acquitted or that the jury will fail to agree.

Fire at Kobe, Japan.

London, March 4.—A cablegram received from Kobe, Japan, states that a fire occurred in the sheds on the docks there, and that the goods stored therein from a vessel from Bombay have been burned, together with the vessel, and that there had also been burned American cotton to the value of \$200,000.

Carlists Issue a Manifesto.

Madrid, March 4.—The carlists have issued a manifesto announcing their intention to take part in the coming elections.

The queen regent has signed the decree reducing the duties on wheat and flour.

Claims Complete Alibi.

Burlington, Iowa, March 4.—The attorney for A. D. Storms, charged with the murder of Mrs. Rathbun, is in town working in his client's interest. He claims he has been able to account for every minute of Storm's time at the time the murder was committed, thus making a complete alibi.

Thirty Tons of Powder Daily.

Reading, Pa., March 4.—Several citizens just returned from Wilmington visited the large Dupont powder works on business. While there they learned that the plant was turning out thirty tons of smokeless powder every twenty-four hours.

John Newton Hendren Dying.

Staunton, Va., March 4.—John Newton Hendren, ex-treasurer of the confederacy, is critically ill at his suburban residence near this city, and his death may occur at any time.

WHAT pleasure is there in life with a headache, constipation, and biliousness? Thousands experience them who could become perfectly healthy by using DeWitt's Little Early Risers, the famous little pills. People's Drug Co.

Liberal Claims Are Proved.

Toronto, Ont., March 4.—A canvass of the votes cast at the recent election showed that the liberals' claim of victory was well founded, the government having been sustained by a small margin. The standing is: Liberals, 49; conservatives, 43; independent, 2, leaving the liberal government with a working majority of four over all, with one constituency (Russell county) vacant, which will no doubt go to the government.

A thrill of terror is experienced when a brassy cough or croup sounds through the house at night. But the terror soon changes to relief after One Minute Cough Cure has been administered. Safe and harmless for children. People's Drug Co.

Reduced Rates For Settlers.

In order to encourage the movement of settlers and land buyers from Illinois, Wisconsin, Iowa and the eastern states to Western Minnesota, South Dakota and North Dakota, the Chicago, Milwaukee & St. Paul railway co. has very materially reduced its carload rates for emigrant mowers, so that farmers who have purchased lands in Western Minnesota, South Dakota and North Dakota can take all of their belongings with them to their new homes at small expense, which inducement upon the part of the Chicago, Milwaukee & St. Paul Ry. will no doubt be greatly appreciated by those who are thus benefited.

For further information apply to any agent of the Chicago, Milwaukee & St. Paul Ry., or to J. H. Hildreth, General Freight Agent, Old Colony Building, Chicago, Ill.

If the Baby Is Cutting Teeth

Be sure to use the old and well tried remedy Mrs. Winslow's Soother. It soothes the child, settles the gums, allays all pain, cures wind colic, and is the best remedy for diarrhea. Twenty-five cents a bottle.

One Night to Denver.

"The Colorado Special" via Chicago & Northwestern R. R. leaves Chicago daily at 10 a. m.; DeKalb 11:30 a. m.; arrives at Omaha 11:50 p. m. same day and Denver 1:30 next afternoon. Connecting train from Janesville, leaves at 8:25 a. m. Connections made in the Union depot, Denver, with trains to all points in Colorado and the west. Up-to-date equipment. Daylight ride through Illinois, Iowa and Colorado.

Claims Complete Alibi.

Burlington, Iowa, March 4.—The attorney for A. D. Storms, charged with the murder of Mrs. Rathbun, is in town working in his client's interest. He claims he has been able to account for every minute of Storm's time at the time the murder was committed, thus making a complete alibi.

Thirty Tons of Powder Daily.

Reading, Pa., March 4.—Several citizens just returned from Wilmington visited the large Dupont powder works on business. While there they learned that the plant was turning out thirty tons of smokeless powder every twenty-four hours.

John Newton Hendren Dying.

Staunton, Va., March 4.—John Newton Hendren, ex-treasurer of the confederacy, is critically ill at his suburban residence near this city, and his death may occur at any time.

Wright's 'High School Tar Soap' IS RIGHT GOOD SOAP

The highest cleansing and healing qualities in it of any TAR SOAP made. For cleaning greasy articles where other Soaps refuse to take hold it has no equal. As a healing article for use about animals it is certainly very fine. One of our unsolicited testimonials:

"Last spring my cows were troubled with the Kine Pox; tried several remedies, but found nothing to help until after using J. T. Wright's HIGH SCHOOL TAR SOAP, when they were cured in three days." H. J. BULLOCK, of Janesville City Creamery.
